

## **PuriCore plc Board Changes**

**MALVERN, PENNSYLVANIA, AND STAFFORD, UK, 2 July 2010** — [PuriCore](#) (LSE: PURI), the water-based clean technology company focused on developing and commercialising proprietary, green solutions that safely, effectively, and naturally kill infectious pathogens, today announces that it has named Matthew Hammond, 35, as Non-Executive Director and has accepted the resignation of two Non-Executive Directors, Timothy Anderson and James Walsh, PhD, with immediate effect.

Mr Hammond brings more than 13 years of financial analysis and advisory experience to the PuriCore Board of Directors and will serve on PuriCore's Audit and Remuneration Committees. He began his career at Credit Suisse, serving 11 years as a Sector Head in Equity Research and later in Credit Suisse's Private Bank Ultra High Net Worth Client Advisory on portfolio allocation, strategic M&A, and individual investments. Currently, Mr Hammond is Group Strategist for Metalloinvest, managing the non-core asset portfolio and advising on M&A, financing, and transaction structuring as well as managing transactions. He is also a non-executive director of Nautilus Minerals and Strike Resources. Mr Hammond earned a BA (Hons) from Bristol University in 1997.

*Chris Wightman, Executive Chairman, said:*

*"We thank Tim and Jim for their considerable guidance, commitment, and leadership to the PuriCore Board of Directors and wish them success in their future endeavours. We welcome the addition of Matthew's broad financial experience and impressive track record to our Board, and believe he will be a valuable asset as we continue to drive PuriCore's profitability."*

There are no further details to be disclosed in relation to the Financial Services Authority UK Listing Rules, and Forms TM01 and AP01 respectively confirming the resignations of Mr Anderson and Dr Walsh and the appointment of Mr. Hammond have been submitted to the Registrar of Companies.

## **About PuriCore**

PuriCore plc (LSE: PURI) is a water-based clean technology company focused on developing and commercialising proprietary green solutions that safely, effectively, and naturally kill infectious pathogens without causing harm to human health or the environment. PuriCore's patented, proprietary technology mimics the human body's production of the natural antimicrobial hypochlorous acid, offering a safe and non-hazardous approach to disinfection and sanitisation. The Company's products are used in a broad range of markets that depend upon controlling contamination, including food retail and foodservice, medical device disinfection, and wound care. Hypochlorous acid is proven to be safe, environmentally friendly, and fast acting against a broad range of infectious pathogens, including major public health threats of *C.difficile*, *E.coli*, HIV, Human and Animal Influenza (including H1N1 and H5N1), *Legionella*, *MRSA*, *M.tuberculosis*, Norovirus, and *Salmonella*. PuriCore is headquartered in Malvern, Pennsylvania, with operations in Stafford and Clevedon, UK.
